Filling the Gaps ~ Training Providers in Reproductive Health

Training Application

The Midwest Access Project (MAP) is a nonprofit organization based in Chicago that works with medical students, nursing students, residents, advanced practice clinicians, and licensed physicians to coordinate reproductive health training rotations to meet the individual needs of each trainee. MAP is not a health center or clinical site and does not provide any patient care directly. MAP works with a network of providers throughout the Midwest to coordinate and provide training rotations to MAP trainees.

This application is designed to help us optimize your training experience and best assist you to meet your training goals.
