

Join MAP's Network of Clinical Training Sites!

- Are you or your practice committed to training highly motivated medical students, residents, physicians, and advance practice clinicians in full scope reproductive healthcare?
- Do you have the capacity to train 1-3 learners individually each month?
- Do you want to provide training, but have limited capacity to handle the necessary administrative tasks?

Let MAP handle administrative duties so you can focus on what you do best; providing the highest quality reproductive care and training for new providers!

About Midwest Access Project

Midwest Access Project (MAP) envisions a society in which every person has access to patient-centered, quality reproductive health care within their community. Our mission is to improve access to reproductive health care by training providers in comprehensive sexual and reproductive health including contraception, pregnancy options counseling, miscarriage, and abortion. As a Midwestern hub for training and advocacy, MAP fills gaps in medical education and clinical training, reducing barriers to care. To accomplish its mission, MAP provides health care professionals with individually tailored training rotations, lectures, and workshops to increase knowledge of comprehensive reproductive health care.
